

## WELCOME YEAR 6

I hope you are all staying safe and healthy in these tough times. We are looking forward to seeing you all in September and welcoming you to our great school.

You will get to experience different subjects such as DT, Food Technology, Computer Science, Enterprise, Drama, History, RC and Geography.

My favourite lessons are PE, Science, Geography and DT (wood work). These lessons are really good because they are fun and the teachers help me when I am struggling. The teachers here are very helpful.

There are a variety of trips throughout the years at Bedford High School – some small and some big.

Don't be scared of making any friends because it is very easy. I made lots of friends in the very first week.

There is a range of different clubs such as basketball, badminton, football and lots, lots more.
