

# Welcome To Bedford High School

I understand that you may be scared to move up to high school as you don't know what to expect and you don't know where you're going and it's bigger than your school now, but I can assure you that there will be many teachers and students around to help you. We also follow a daily routine round school called Ready, Respect, Safe. This applies in classrooms, corridors and the bistro. It ensures that nobody will get hurt by running around, no extra practices work at break or lunch will be disturbed by screaming and shouting on the corridors and that means you are always ready to learn.

If you ever have any worries or questions, there are always staff around who you can talk to about anything and they will try to help you in the best way possible as they want to make coming to school and learning a great experience for you.

Our school motto is:

To Care, To Learn, To Achieve

This shows that in our school we care for not only ourselves but others as well, that we always try our best to learn and the staff try to help in the way they think is best so that overall by the end of your experience at Bedford you will have achieved everything you wanted to and if not more with the help of staff and other students.

Remember to always try your best in order to get the end result you want and stay safe. Amber C Year 10

## Bedford High School

To Care | To Learn | To Achieve
