

Hi Year 6

I am currently a year 10 student who is looking forward to welcoming you to start your adventure. This means that as long as you follow the schools rules and regulations then your time here will fly by. It also means that you will get more wonderful opportunities during your time with us.

Feeling emotional and fearful are totally normal as this is something new and a big transition for you. Many of you will have friends already attending this school so your transition is not as difficult and scary. For those who are completely starting here new, on your own, then well done as you have a lot of courage and there will be no issues with you making new friends. Everyone attending this school are friendly and well-mannered so you will fit right in.

A typical day at Bedford for me is to enter and to have a smile on my face as I get to see all my friends. In form everyone is welcomed with open arms. One day a week we have a whole year group assembly in which we discuss what's going to happen in the upcoming days and weeks. After form its period one and period two these both consist of one hour. After this there is a break of 20 minutes. We then move on to period 3 and 4 which are also an hour long each. Lunch comes after this which is 40 minutes long, period 5 follows this for an hour. If you are worried or cautious about getting to lesson or not on time there's no need to worry as you the chance to reach your next lesson as the whole school is on the move at that time.

At Bedford I enjoy being with my friends and enjoying the new experiences and unique opportunities. I also enjoy being able to witness hard work by all staff working at school trying to see everyone's best interests first hand.

Things that are a necessity are a pen for obvious reasons as it is required for every lesson to complete the set tasks asked of by the teachers. A bag is also vital as piece of equipment to be able to take your notes home in order to transfer them throughout the school in different lessons. This is important as the notes will help you to prepare for upcoming exams and tasks. The last thing needed is a welcoming smile as it will brighten up other people's days and make a better atmosphere.

I gradually built up my confidence by talking to more people and slowly building up my self esteem.

Remember to keep safe, keep learning and be kind these are what is meant by our values To care, To learn, To achieve.

Take care.
