Allows you to form an outline of the career path you may choose.

Enables you to build a foundation relationship with a local employer and possibly make a lasting impression.

Help you discover something about your skills, abilities and talents.

Helps you make better informed decisions about the future.

# The most important reason

30 million people go to work every single day

How many don't enjoy it?

A successful work experience that you enjoy means you are **86%** less likely to be unemployed in your adult life.

# Reasons why you might not like your job...

- 2. You feel unrecognised**
- 3. You are no longer passionate**
- 4. The company's values no longer align with yours**
- 5. You are suffering from burnout**
- 6. You feel underpaid**
- 7. Your work environment is dreadful**
- 8. Someone is giving you a tough time**
- 9. Your commute is too long**
- 10. The grass is greener on the other side of the fence**

# So what do people need to focus on?

# Why do work experience?

Help to show you the link between school and your future careers aspirations.

Help you learn about personal presentation skills for interview in the future.

Provide you with opportunities to work alongside adults and to be treated as a member of the workforce.

**Many of our students gained part time jobs, apprenticeship opportunities from their work experience placements. Many are now working towards these careers at college and university!**

# What will employers be looking for?

The ability to work as part of a team.

Enthusiasm and using your own initiative.

Loyalty and a positive attitude.

Flexibility and willingness to work.

Honesty, reliability and responsibility.

# Where to do your work experience?

You can gain vital work experience in almost any work place – it does not necessarily have to be an area you are thinking of pursuing after leaving school. Keep an open mind and be enthusiastic on your placement – the more you put in, the better an experience you will have and the more you will get out of your week.

Some students choose to complete their work experience at the place of work of a family member or family friend, use your “Network”.

If you have a part time job, you can do this for the full week and maybe shadow another staff member in a different role or department.
